

YOU write a story!

1. Dream

- I journaled

2. Brainstorm

- Plot/Climax
- Who/Characters
- Where/Locations
- Important Notes/Conversations

3. Draft

- I use Word.doc and begin just typing.
- Organize the details in PowerPoint. 1 scene per page for easy cut and paste moments.

4. Edit

- My dear friends (3/4 of them) are my editors. They're honest and know me and my material best.

5. Design

- In PowerPoint I can draft what my design ideas are. The graphic designer is given the document and plays with the layout AFTER I get images illustrated. We collaborate to perfect it.

6. Print

- We print with a local printer in Michigan as we like to shop small. It's personal and wonderful. Shipping is faster also.

Brainstorm
